There is a heavy Southern demand for bacon, and cattle and hogs are both in better demand at the West, the former being 150000 cents higher.

Professional trading characterizes the Wall street stock market, and aside from Reading, which has been freely sold at a decline of 2 1/2 points, it has ruled moderately firm.

Next to Reading, sugar certificates are most active, showing a net advance. Tennessee Coal and Iron and Chicago Gas are both lower.

WHAT THE BANK CLEARINGS SHOW. The total bank clearing at 11 cities in February aggregated \$4,309,045,331, an increase over February last year of 2.4 per cent.

trade is active and a fourth advance in prices within three months has been ordered, but tint glass works at Pittsburgh are curtailing production.

Little can be said of the market for breadstuffs, for notwithstanding a spasm of activity one day in wheat—resulting in a rise of 1/2 cent—there has been rather weaker, and lead in scanty supply and stronger.

RISE OF FOREIGN EXCHANGE. The indications that purchases of foreign account and excess of securities, all tend to make the absorption of money by the Treasury less observed.

THE BUSINESS FAILURES during the last seven days are 293, as against a total of 291 last week. For the corresponding week of last year the figures were 281.
